State & Local Project Story Map

GISi State and Local Government Project Atlas

Helping governments maximize the value of their GIS for over 20 years

Map showing project locations across the United States. Legend includes: Esri SAG Award Winner, GIS HealthCheck, and ArcGIS for Local Government & ArcGIS Online Solutions. Text: GISi has been helping state and local governments maximize their investments in.

Project Number	Organization
1	City of Adrian, MI
2	City of Alexander, AL
3	Aqua Water Supply Corp., TX
4	City of Aurora, IL
5	City of Austin, TX
6	Bibb County, GA
7	City of Birmingham, MI
8	City of Boca Raton, FL

City of San Mateo

Migrating data into the Local Government Information Model (LGIM)

- Esri Local Government solution templates
 - Address Data Management
 - Fire Safety – Pre-incident Planning

- Shift from big paper map books to a digital format

- Save time when it counts the most- When lives are at stake.

- Great tools available for addressing

- Will be migrating all of their data into the model and we will be helping to stand up some more maps and apps and continue to help them meet their business requirements

City of San Mateo

Why the LGIM?

- Esri responded to city GIS program needs
- Provides structure and improved database architecture as program matures
- Solid model to develop apps
- Succession planning
 - Established workflows
 - Familiar templates for incoming GIS staff
- Excellent built-in documentation and upgrade path
- Business of database maintenance supported with automated and data integrity workflows
 - Results:
 - Direct resources towards apps
 - Set precedence and model enterprise data management (unify the GIS program)
 - Built in security and data integrity

Why the Platform?

- Increase your web presence
- Make your data available on mobile devices
- Make data easily accessible to the public and internally
- The platform will take you from serving 5% of your target audience to serving 100%
- Will help you meet your business requirements

Thank You!
